| Product properties | ✓ derived from natural citrus peel extracts ✓ high dissolving power ✓ fast dissolving of adhesive residues |
| Available packaging | ✓ 1 ltr Blechflasche |

PROCESSING

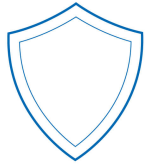

Apply cleaner to the soiled area, let it soak for a short while and then wipe off with clean cotton rag.

OTHER INFORMATION

Depending on the type of surface treatment, when applied to treated wood flooring or laminate flooring, the surface may be damaged subject to curing time of the cleaner, in the form of dull spots or color changes. It is therefore imperative to pre-test the product in an inconspicuous area of the wood or laminate flooring.

LIMITATION OF LIABILITY

The foregoing representations are based on the results of our most current product and material testing and are of a non-obligatory advisory nature only since we have no control over the actual quality of workmanship, materials used and worksite conditions. As such, they do not constitute an express or implied warranty of any kind. The same applies to our commercial and technical consultation services which are provided free-of-charge and without obligation. Therefore, we strongly recommend that prior on-site testing be conducted to observe and study the suitability of the product for the intended purpose. With the release of this technical information, all prior technical information (technical data sheets, installation recommendations and other information regarding similar purposes) becomes invalid.
